Learning Outcomes

By the end of this unit, students will be able to:

LO3: Develop approaches to respond to the challenges of the internal and external environment

LO4: Construct an individual employee lifecycle plan that contributes to organisational success.

Overview of the Assessment

The module (unit) consists of four learning outcomes, and this assessment is set to achieve the learning outcomes 3 and 4.

Scenario: Aligning Employee Lifecycle Plans with Business Challenges

To thrive and to stay competitive in today's ever-changing business environment, it has become important for organisations to foster a collaborative culture that results in creating high performance. Considering employees as their most important resource, organisations are prioritising continuous employee growth and well-being by maintaining a proactive approach that strategically integrates employee life cycle planning with team development. Therefore, it has become crucial for every organisation to engage in individual employee lifecycle planning from recruitment to retirement, as it leads not only to attracting top talent but also to nurturing the growth of business organisation.

Task: Digital Poster and Video Presentation

As an Assistant HR Manager of a leading Sri Lankan company operating in the tourism industry, you are assigned to design a digital poster and record a video presentation to be circulated among the staff members of the HR Department on the theme: "Aligning Employee Lifecycle with External and Internal Business Dynamics".

You are required to **select an organisation** and make a digital poster and, create a video presentation on the poster. You will attend a panel discussion where you may be asked questions about the content of your digital poster and video presentation.

Guidance Notes

Your Digital Poster and the Video Presentation shall cover the following:

1. Internal and external environmental factors for HR decision making
 2. Impact of environmental factors on skill requirements
 3. Developing strategies to address environmental challenges
 4. Construct an individual employee life-cycle plan
 5. Measuring the effectiveness of the employee life-cycle plan
 6. Integrating internal and external factors into the employee life-cycle plan
-

Learning Outcomes and Assessment Criteria

Learning Outcomes	Pass	Merit	Distinction
3. Develop approaches to respond the challenges of the internal and external environment	3.1 Examine the internal and external environmental factors that influence effective HR decision-making 3.2 Analyse the influence of internal and external factors on anticipated skill requirement of a specific organisation	3M1 Develop strategies to manage internal and external environmental challenges affecting the organisational performance	3D1 Present an individual employee lifecycle plan that considers internal and external factors, to align with the achievement of organisational strategy

Instructions and Guidance

- You are required to make a digital poster and create a video presentation on the poster.
- You can select any design software or tool of your choice to design your poster.
- The size of the digital poster shall be A3, with margins of 1" right, left, top and bottom in landscape orientation.
- The sources used to design the poster shall be cited according to the Harvard referencing guidelines.
- The time duration allocated for the video presentation is 10 minutes.
- The Student Co-ordinator will inform of the time slot allocated for the panel discussion. You are required to submit the digital poster along with the video prior to the panel discussion.
- The learner should be present in person and the assessment panel may pose questions on the subject content.

Submission Procedure

1. Submit the soft copy of the digital poster in PDF format to your Teams batch (GDM B 84)
2. Upload your video presentation to the given team's link
3. Name both poster and video in the following format. "Last Name_First Name_Student ID"

Plagiarism

Plagiarism is treated as a serious academic offence. Any act of plagiarism will be dealt with in terms of BMS regulations. Plagiarism is presenting someone's work as your own. It includes copying information directly from the web or books without referencing or paraphrasing the material, submitting joint coursework as an individual effort and copying another student's coursework.
