

GRADUATE DIPLOMA IN MANAGEMENT

April 2026

GDM 606: Research Project

Batch 84

Assessment Brief

Qualification	ATHE Level 6 Graduate Diploma in Management
Assignment Title	Research Project
Module Leader	Harshini De Silva, <i>MSc</i>
Date of Issue	20 April 2026
Submission Date & Time	6 June 2026 – Before 2:00 pm

Learning Outcomes

By the end of this unit, learners will be able to:

- LO1:** Apply research methodologies and techniques to gather primary research data and evidence for solving a business and management problem.
- LO2:** Understand qualitative and quantitative research data and evidence to interpret research outcomes.
- LO3:** Present research data, evidence and outcomes to communicate research outcomes.
- LO4:** Understand the research process and research methods to make justified recommendations for improvements.

Overview of the Assessment

The module (unit) consists of four learning outcomes and this assessment is set to achieve all learning outcomes. Learners are encouraged to choose their own research topic in consultation with the supervisor for this unit.

Task: Research Project

You are required to complete the research project based on the proposal submitted for Unit 5 Research Methods for Managers.

To successfully complete your project, you should;

1. Analyse and evaluate the findings using SPSS software.
 2. Present how the project objectives have been achieved.
 3. Draw the conclusion from the main findings of the primary research and synthesise it against the reviewed literature.
 4. Indicate the limitations of the project and formulate actions for future research.
 5. Present justified recommendations.
-

Guideline Notes

The following guidelines may be adapted to present the research project.

Title	Include the approved project title.
Abstract	The abstract is an informative outline of rationale, research methods, findings, conclusions, recommendations and keywords of the professional project.
Findings and Analysis	You may use SPSS software to generate graphs, charts, tables and any other form of data presentation to illustrate your findings (quantitative study) and thematic analysis for qualitative study.
Conclusion and recommendations	Conclusions must be drawn from the evidence presented in the main sections of the professional project.
Reflective statement	A personal reflection on the project.
References	Provide the full list of source references in the proposal, according to Harvard Referencing Style.
Appendix	Pilot questionnaire and questionnaire and/or interview questions, transcripts and time plan for completing your project should be attached.

Word Count: 5000

Project Supervisor

Each learner will be allocated have a designated Project Supervisor. You are required to meet the Supervisor regularly with a prior appointment within the course of writing your Project. Minutes shall be annexed with the proposal as evidence of meetings and continuous progress of the project with supervision.

Learning Outcomes and Assessment Criteria

Learning Outcomes	Pass	Merit	Distinction
1. Apply research methodologies and techniques to gather primary research data and evidence for solving a business and management problem	1.1 Generate appropriate research data and information for solving a business and management problem 1.2 Justify chosen research techniques by testing them for reliability and validity	1M1 Apply information and data collection methodologies, that have been assessed against best practice research approaches, to address a business and management problem	1D1 Justify research data and evidence, using appropriate research practices, that lead to relevant outcomes that inform business and management problems
2. Understand qualitative and quantitative research data and evidence to interpret research outcomes	2.1 Appraise statistical analysis techniques and data measuring methods and software that can facilitate data analysis	2M1 Apply appropriate analytical methods, techniques and software for analysis and interpretation of qualitative and quantitative research data and evidence	
3. Present research data, evidence and outcomes to communicate research outcomes	3.1 Present research findings and outcomes in a logical and coherent manner through visual support aids, tools and formats 3.2 Analyse the research findings and outcomes in the context of the literature review	3M1 Present research data and evidence in a coherent and effective manner, using a range of visuals and formats, to critically inform relevant stakeholders on a specific business problem	3D1 Present appropriate research outcomes and findings in a professional manner, including reflection of research processes
4. Understand the research process and research methods to make justified recommendations for improvements	4.1 Assess the effectiveness of research approaches and practices in yielding positive outcomes to a business problem 4.2 Develop informed and justified recommendations to improve research practices and approaches in a specific business context	4M1 Evaluate research approaches and practices to inform suitable and justified recommendations that will develop and improve business research, and which respond to specific business needs	

Submission Guidelines

You shall submit a soft copy of the project to your Microsoft Teams account. Proof of submission shall be attached in the appendix section of the hardcopy.

Word Count	: 5000 words
Font	: Times New Roman or Arial
Heading Font Size	: 14
Text Font Size	: 12
Line Space	: 1.5
Paper Size	: A4
Paper Layout	: Portrait
Binding	: Spiral Binding
Book/Spiral Printing	: Single Side only Review Sheets Minimum Three (3)

Plagiarism report generated from BMS approved software to be attached.

Plagiarism

Plagiarism is treated as a serious academic offence. Any act of plagiarism will be dealt with in terms of BMS regulations. Plagiarism is presenting someone's work as your own. It includes copying information directly from the web or books without referencing or paraphrasing the material, submitting joint coursework as an individual effort and copying another student's coursework.
