Learning Outcomes

By the end of this unit, students will be able to:

LO3: Apply marketing tools and techniques to analyse internal and external environment of an organisation

LO4: Design a digital marketing campaign that integrates multi-digital channels

Overview of the Assessment

The module (unit) consists of four learning outcomes and this assessment is set to achieve the learning outcomes 3 and 4.

Scenario: Constructing a Winning Digital Marketing Plan

Digital marketing differs from traditional marketing as it uses channels and methods which allow an organisation to analyse marketing strategies with campaigns and understand about working in real time. It is important as it is a fast-growing force in the present marketing field and useful for the future by replacing traditional forms and uses digital methods of communication which makes marketing faster, more versatile, practical and streamlined. With the occurrence of the digital revolution, the advancement of technology moves from analogue electronic and mechanical devices to digital technology. Businesses are empowered to make sound, data-driven decisions when armed with marketing and customer insights. Companies may measure the effectiveness of their marketing campaigns in real time by using technologies such as analytics and monitoring software.

Task: Group Presentation

Your team is engaged in supporting a small business in enhancing its growth using digital strategies. You are required to design and present a digital marketing campaign for a chosen organisation, integrating multi-digital channels. Your presentation aims to outline a clear roadmap for clients, ensuring their success in the digital landscape.

You are required to contribute individual evidence to satisfy the relevant assessment criteria while working within the group. Your reflective video shall demonstrate how you satisfy the relevant assessment criteria and the panel members may verify the relevant evidence and your contribution with questions during the presentation.

Presentation Guidelines Notes

Your presentation shall cover the following:

1. Internal and external environmental analysis.
2. Outcome of analysis: Marketing insights
3. Design a creative digital marketing campaign
4. Integration of multi-digital channels
5. Campaign aligns digital marketing strategy

Presentation Instructions

1. The Student Coordinator will inform you of the time slot allocated for your presentation, and you are required to submit the slides prior to delivering the oral presentation.
2. The time duration allocated for the presentation is 30 minutes and the Assessment Panel may pose questions on the subject content.

Individual Reflective Video – Maximum 5 minutes

You shall submit an individual reflective video on the multi-media digital marketing campaign. Your reflections may include the knowledge and skills gained in designing and developing the digital marketing campaign and the components, tools and techniques utilised in the process of teamwork.
