LO1: Understand the scope, functions and processes of Human Resource Management to improve organisational and employee performance.

LO2: Understand the effective Human Resource Management practices in a work-related context to improve sustainable performance

DFCC Bank: Building a Future-ready Workforce for Sustainable Performance

DFCC Bank PLC is one of Sri Lanka's leading commercial and development banks, operating through 133 branches with a workforce of approximately 2,500 employees. Recognised as the first bank in Sri Lanka to issue both Green and Blue Bonds, DFCC has embedded sustainability into its long-term business strategy. The Bank's Human Resource Management (HRM) practices are closely aligned with its environmental, social, and governance (ESG) goals, recognising people as the key driver of sustainable growth and digital transformation.

DFCC adopts a strategic approach to recruitment and talent management, attracting skilled, value-driven individuals while promoting internal career progression. Structured onboarding, coaching, mentoring, leadership development, and transparent career pathways improve employee retention and prepare future leaders through succession planning. The Bank is committed to Diversity, Inclusion, and Equity (DIE), creating equal employment opportunities and promoting an inclusive workplace. Women represent 45% of the total workforce, with increasing female representation in leadership positions. DFCC also actively recruits differently abled individuals, reinforcing its commitment to social sustainability and equal opportunity.

Continuous learning and development are central to DFCC's HR strategy. Employees completed over 102,160 training hours, averaging 33.8 hours per employee, covering leadership, digital capabilities, ESG, energy management, resource efficiency, and inclusive workplace practices. These initiatives equip employees with the skills needed to support innovation and sustainable banking. Performance is managed through quarterly reviews, performance-based rewards, competency assessments, and workforce planning, ensuring employee objectives align with organisational strategy while identifying talent for future leadership roles. Recognising that employee well-being contributes to organisational performance, DFCC promotes an open-door communication culture, flexible working arrangements, work-from-home opportunities, and employee support programmes that enhance engagement, satisfaction, and work-life balance.

DFCC integrates sustainability into every stage of the employee lifecycle from inclusive recruitment and leadership development to employee well-being, performance management, and continuous learning. Employees are encouraged to practise responsible resource consumption while supporting the Bank's ESG initiatives and sustainable finance strategy. By aligning its HRM

practices with sustainability objectives, DFCC develops a future-ready, inclusive, and high-performing workforce, demonstrating how strategic Human Resource Management can create long-term organisational value while contributing to environmental stewardship, social responsibility, and sustainable economic growth.

Learning Outcomes and Assessment Criteria

Learning Outcomes	Pass	Merit	Distinction
1. Understand the scope, functions and processes of Human Resource Management in improving organisational and employee performance	1.1 Explain the purpose, scope, functions and processes within HRM 1.2 Appraise key elements of HRM and the contribution it makes to organisational and individual performance	1M1 Discuss a range of HRM elements that contribute to the achievement of organisational objectives	1D1 Appraise an extensive range of HRM elements and processes, justifying how it supports sustainable organisational performance
